

The vision of the institution is to become a model institution rooted in traditional values with global perspective

while competently serving to the academic necessity of Tripura. The ultimate aim is inclusive education, to

inculcate highest human values and professionalism among its students so that they become intellectually

competent, morally upright and sensitive to the needs of the society in particular and the humanity as a whole.

The central emphasis of college authority is the inclusive education and make the students responsible citizen of the country with a human face. The role of faculties , principal and office staff and other stakeholders are ingrained in this manner and all are committed to meeting the academic interests of students on priority basis. Emphases are on all round development of students. Right from creating an ambience of quality education in the different programmes introduced in the college, emphases are given on co curricular and extracurricular activities . Debates and literary activities , boosting self confidence and personal development buttressed by efforts on increasing the skill of students are given proportionate weightage so that students become true human being. Showing respect to teachers, understanding the essence of discipline , punctuality and rule of life and caring elderly , aged , underprivileged section are also being imbibed to the students through special campaigns propagated by the NSS . The students could learn to believe that there is no substitute to relentless effort which is the bedrock of success . Nothing can be gained without sustained efforts and no work is less abortive if it involves an honest cent per cent endeavour. Thus students should never be disappointed with the end result for his/ her tireless efforts. Hardly all experiments bear fruit at maiden attempt for which fathomless efforts are the impeccable choices.

This country is proud of own culture and civilization and Tripura is no exception to it. Its history is chequered with many glories of royals ruled the state till October 1949. The tumultuous events occurred after the sudden death of Maharaja Bir Bikram Manikya brought a gloomy fate in the boundaries of the state causing the loss of chaklaroshnabad , the most fertile and revenue earning landscape and rendered this part of land a geographically isolated due to loss of railway connectivity to erstwhile East Pakistan or now Bangladesh. But the students are not abreast of many things and even so called history textbooks do hardly . History , culture and own language are sitting at the back of their mindset. With a view to reviving the old culture and making known the true history of the state , long journey is awaited. Most of students in this college are also not aware of the real history. On the contrary to it , this college , over the last two years, is trying its best to unfold the many facets of glorious past remained in obscurity led by the Department of History in particular.
